Employment

WebToMed L.L.C., Schaumburg, Illinois

Jul. 2017 - present

Full Stack Developer - LAMP, Symfony, JavaScript, React, Webpack, MySQL

- Engaged in development of websites and enterprise web applications with a team using Scrum/Agile development methodology with weekly sprints and daily stand-ups.
- Developed application features including integrating internal API's, financial report generation, managing user access with specific roles and e-commerce solutions.
- Developed application features with CRUD (Create, Read, Update, Delete) operations, created new MySQL tables and wrote SQL queries.
- Volunteered to develop a new application build pipeline by using gulp task runner that increased page load speed.
- Engaged in on-boarding new hires by training which allowed them to contribute to the team more quickly and effectively.
- Implemented unit tests for all new code and wrote database migrations.
- Implemented Photoshop designs into HTML, JavaScript, PHP and CSS code.
- Created new newsletter email list integration feature that combined lists from multiple platforms into one.
- Independently developed a Bing map module in JavaScript from scratch that is used live on dozens of client websites, which reduced costs after switching from a preexisting and more expensive Google maps api.
- Repeatedly succeeded in troubleshooting and debugging client reported issues on a large and complex codebase.

Projects

Code is available to view on GitHub and links to live sites on KonradGnat.com

- **Vitadox.com** (React, Redux, Jest) - Development of React components, wrote tests with Jest and Enzyme.
- **TASciences.com** (PHP, JavaScript) - Developed from scratch, using PSD design and implemented e-commerce store.
- **DrLeu.com** (PHP, JavaScript) - Development of e-commerce platform using PHP, Symfony and JavaScript.
- **A4M.com** (PHP, JavaScript) - Part of a small team that developed this enterprise web app.
- **CarsonTahoe.com** (PHP, JavaScript) - Took part in developed website, especially responsive front end.
- **Tank Battalion** (NodeJS, JavaScript) - Developed completely from scratch a 2D single and multi-player game with the canvas element. It uses SocketIO to connect users in multiplayer mode.
- **ReadBooks** (NodeJS, React, Express, MongoDB) - Developed a web app with user login with social media account, features creating posts, comments and user profile.
- **GifNotes** (NodeJS, Express) - Led a small team that developed a web app that creates gifs from video using Gfycat API. Won an award at Gfycat Hackathon.

Technical Strengths

Languages

Javascript, PHP, SQL,
HTML5, CSS3, Java, C,
Python

Frameworks

React, Redux, Enzyme, NodeJS, Symfony,
Express, Django, Jest, PHPUnit, Sass

Tools

Jira, Agile/Scrum, MySQL, Linux, Webpack,
Gulp, Git, Linux, EC2, Nginx, MongoDB,
Docker

Education

42 - Fremont, CA

Apr. 2017

The "Piscine" is a rigorous C language bootcamp at 42; a coding university located in Silicon Valley.

University of Illinois at Chicago

Aug. 2009 - May 2012

BA Major in Polish Literature and Language

Jagiellonian University

Summer 2011

Study abroad certificate, Krakow Poland
