Profile

I am an impassioned computer programmer with a focus on increasing my value as an asset to my organization. I love tackling new projects, problem solving and working within a collaborative team environment. I am dedicated to excelling at my craft and directly contributing to my organization's success

Projects

All code is available to view on GitHub and links to live sites on KonradGnat.com

- Tank Battalion - A 2D single and multi-player game built with vanilla ES6 JavaScript and canvas completely from scratch
- ReadBooks - A instagram like app, login with social media, post and comment on books you love.
- GifNotes - Winner for new business idea at GIF Hack 2017, NodeJS app that creates gifs from video using Gfycat API
- Live Sports 360 VR - Winner at DeWeek Hackathon 2017 in SF, web app that live streams VR video using Wowza
